Aloecorp, Inc. Achieves Self-Affirmed GRAS Status For All Products

Aloecorp, Inc. (Tacoma, WA), a market leader in Aloe vera products, is pleased to announce that its product line, which consists of Aloe vera purified inner leaf and purified leaf products, has recently been granted status as Generally Recognized as Safe (GRAS).

This announcement was concluded by the Burdock Group, a leading expert in regulatory compliance, in accordance with stringent regulatory safety guidelines and available safety data, using well-accepted toxicological principles. In that regard, the Burdock Group (Orlando, FL) has prepared a comprehensive GRAS dossier that includes a review of Aloecorp’s scientific and safety data, and analysis.

“Aloecorp has always been a leader in the production and supply of quality Aloe vera products,” says Jeff Barrie, Vice President of Sales and Marketing for Aloecorp. “We are now even more proud to demonstrate this continued leadership with the new GRAS status for all of our products.”

###

About Aloecorp, Inc.

Aloecorp (www.aloeCorp.com) is the world’s leading vertically integrated fine ingredient Aloe vera supplier and manufacturer with operations in the U.S., Mexico, and China. Focused on scientific methodology and procedures which guarantee product quality, purity, potency, and biological activity, Aloecorp ingredients are supported by published, peer-reviewed studies. After more than 30 years, Aloecorp remains committed to “bringing the best of nature to humankind.”

About Burdock Group

Since its founding in 1988, the Burdock Group team has grown to include many food safety and regulation compliance experts across the spectrum of toxicology, human and animal nutrition, food science, project management, and regulatory affairs. Their dynamic team provides unparalleled expertise in regulatory compliance services and consulting for food & beverage, pet food & animal feed, dietary supplements, cosmetics & personal care, hemp/CBD and EPA.
